Station M A D R A S., *Dated the* 29th February 1940

From (Name) Lieut-Col.S.C.Contractor, M.B., I.M.S.,
(Designation) Inspector General of Prisons,

To The Secretary to the Government of Madras,
HOME *Department.*

Sir,

I submit herewith an estimate amounting to Rs.700/- for special repairs and improvements to the staff quarters attached to the Junior Certified School, Bellary for the administrative approval of Government.

A copy of letter No.G.253/40, dated 27th January 1940 from the Headmaster explaining the necessity for the work is enclosed. I considered it as a very essential work, in the interests of the occupants of the quarters, and included it in the list of Forecast of Minor Works costing Rs.2,500/- and below for 1940-41. The Residential

quarters

quarters of the staff of the Junior Certified School, Bellary are located very far away from the town and there are no residential or any other buildings near-by. The whole place is like a desert and there is no traffic also. Though a public road adjoins these quarters it is not a busy thoroughfare. Hence, I am of the opinion that the Special repairs and improvements now proposed for the quarters are quite essential and urgent. I therefore request that Government may accord administrative approval for the work at an early date so that the work may be taken up early in April 1940 and completed as soon as possible.

Copy of letter No.G.253/40, dated 27th January 1940 from the Headmaster, Junior Certified School, Bellary.

Subject: Staff Quarters - Special repairs - Administrative approval of Government - Required - Estimate - Submission of

---

In the Chief Inspector's inspection report of the school in the year 1939, improvements to the subordinate quarters, were suggested. The Executive Engineer, Bellary has prepared and sent to estimate for Rs.700/- and wants the administrative approval of the Government to be obtained as the capital cost of the building will be increased by Rs.556/-. A copy of his letter and the estimates are herewith submitted.

There were cases of house breaking through the windows and theft in the lines. The windows have glass shutters, and are protected with wire netting which can be easily removed. Hence the fixing of expanded metal in place of the wire netting is quite essential in the interest of security.

Provision of doors in the back yard are also quite necessary so that the entry of stray cattle and at times wild animals inside the quarters can be prevented.

Copy of letter No.S.7/B.212-38 dated 15th January 1940 from the Executive Engineer, Bellary to the Headmaster, Junior Certified School, Bellary.

I forward herewith an estimate amounting to Rs.700/- for the above work for obtaining the administrative approval of Government and return, as the capital cost of building will be increased by Rs.556/-
